Dear Ms Monahan,

Application for second level domain – health.nz

Thanks you for your letter dated 29th may 2008 where you offered Canterbury District Health Board the opportunity to comment of the proposal to create a new second level domain (.health.nz).

Canterbury District Health Board supports the Ministry of Health's application and agrees that the proposal meets the 5 criteria for a new second level domain.

Further, Canterbury District Health Board supports the moderation policy as proposed. In particular, we support the proposed community definition that covers :

- Practices, clinics, surgeries, and consulting rooms which deliver health and disability services through registered practitioners.
- Hospitals and District Health Boards
- Ministry of Health, ACC and other government health and disability bodies.
