Submission on Application for a New Second Level Domain - .health.nz

This submission is made by the New Zealand Society of Physiotherapists Inc. (NZSP), the professional body representing physiotherapists. The Society currently has 2,732 members who work in a range of settings including private practice, district health boards, special education services and universities.

NZSP supports both the application from the Ministry of Health for a new second level domain (2LD) for .health.nz and the proposed moderation policy.

In particular, NZSP supports the definition which restricts the use of the proposed 2LD for .health.nz to:

- Practices, clinics, surgeries and consulting rooms which deliver health and disability services through practitioners registered under the Health Practitioners Competence Assurance Act 2003;
- Hospitals and DHBs
- The Ministry of Health, ACC and other government health and disability bodies.

Yours faithfully

Gail Leach
Executive Director
