AUTHORISATION PROCESS

1. Statement of Purpose

- 1.1 This policy details the process that potential Registrars must follow to gain authorisation from the Domain Name Commission ("DNC") in order to access the shared registry system ("SRS"), as per the Authorisation Agreement.
- 1.2 The "Authorisation Application Form" ("[Form AOR1](#)") must be completed by the applicant and returned, plus attachments, to the DNC, along with attachments and payment of the application fee before authorisation will be considered.

2. Background

- 2.1 InternetNZ has the ultimate responsibility within New Zealand for the .nz domain name space DNS, and has implemented a Shared Registry System (SRS) for the management of .nz domain name registrations and the operation of the DNS. InternetNZ has appointed the Domain Name Commission ("DNC") to manage and administer the .nz domain name space on behalf of InternetNZ.
- 2.2 A SRS establishes a single register for registering domain names and associated technical and administrative information. The registration of domain names and modification of information associated with that name on the register can be affected only by authorised Registrars. .nz Registry Service ("NZRS") acts as registry.
- 2.3 There will be no limit to the number of Registrars authorised to operate in the .nz DNS.

3. Application Process

- 3.1 Visit www.dnc.org.nz to view the Registrar Implementation Kit which contains all information relevant to becoming a Registrar: Registrar FAQ, technical specifications, the Authorisation Agreement, the Connection Agreement, and all associated .nz policies.

- 3.2 Potential Registrars can make an application to become an authorised .nz Registrar by:
- Completing Form AOR1 and all its requirements. Responses to the questions contained in the form need to be completed fully and accurately.
 - Paying a non-refundable application fee of \$3,000 (plus GST). This is to be made payable to Domain Name Commission Limited.
- 3.3 Send the completed form, any attachments, and payment to:
- Domain Name Commission Limited
PO Box 11881
Wellington 6142
New Zealand
- 3.4 Form [AOR1](#) requires the prospective Registrar to:
- 3.4.1 Provide full contact details, including applicant name, address, phone / fax numbers, email address along with pertinent details for a contact person.
- 3.4.2 Pay a one-off, non-refundable application fee (a standard fee that will recover the average costs of the authorisation process).
- 3.4.3 Provide evidence that they are a legal entity.
- 3.4.4 Demonstrate that they have access to, and will continue to have the appropriate standard of, technical skills and knowledge to be an authorised Registrar.
- 3.4.5 Demonstrate that they have stable finances by providing the DNC with a letter from their bank stating that their accounts have been operating in a satisfactory nature.
- 3.4.6 Demonstrate that they have, and will continue to have, the customer support services, including billing capability, to meet their responsibilities to Registrants.
- 3.4.7 Demonstrate that they have experience in registering and managing domain names, particularly within the .nz name space.
- 3.4.8 Permit the DNC to carry out third party checks that enable the DNC to satisfy themselves that the Registrar meets the above requirements.
- 3.4.9 Include a copy of the Registrar - Registrant Agreement to show that their agreement includes all the required Core Terms and Conditions. The applicant's Registrar – Registrant Agreement must not contain anything that conflicts with the .nz policies.
- 3.5 All applications will be acknowledged by the DNC to the email address provided in the application, within two working days of receipt. Applications will be processed in the order in which they were received. Best endeavours will be made to process applications within a month of receipt.

- 3.6 Should the DNC decline any application they will provide the applicant with a full list of reasons for this. The applicant will be entitled to make a new application in the future.
- 3.7 If the applicant has not sufficiently met the requirement in clauses 3.4.7 the DNC may, at their discretion, choose to impose a requirement whereby the applicant must operate as a formal reseller for a period of up to 12 months. The purpose of this requirement is to prove to the DNC that the applicant understands the .nz market and has sufficient knowledge and experience to operate as an authorised .nz Registrar.
- 3.8 Until the Authorisation Agreement has been signed by the Registrar and the DNC, and the Registrar is connected to the production SRS, the Registrar has no right to claim that they are an authorised Registrar for the .nz DNS.
- 3.9 The DNC may visit the applicant's place of business as part of the authorisation process.
- 3.10 Upon notification of meeting the requirements to become an authorised Registrar the DNC will offer to undertake a training seminar at the Registrar's workplace for the Registrar and their staff.
- 3.11 If authorised, the applicant will have 6 months from the date of authorisation to connect to the SRS. If the applicant has not connected to the production environment of the SRS within this time, their authorisation agreement will be terminated.
- 3.12 The time limit in 4.1 will be imposed retrospectively for those organisations already authorised but not connected to production. The DNC may exercise discretion where the organisation has a legitimate reason for not being connected to the SRS. The DNC will work with affected Registrars on a case by case basis to ensure they are connected to production within 6 months of the effective date of this policy.

4. General Information
