

.nz Policy Framework Review

From: Ministry of Business, Innovation & Employment

Received: Tuesday, 4 August 2015

We have reviewed the changes as specified in the proposal

We support the clarification and simplification of the existing policies. We believe that the proposed changes would be easier to interpret and understand.

Furthermore, we support the responsible use data to serve the community and “grow NZ for all”. Allowing NZRS access to .nz data, under DNCL approval, for the purposes of creating new services and value works toward that goal.

We have no further changes or improvements to suggest at this time.
