

.geek.nz Submission

From: Nigel Isaacs
Received: 20 June 2003

Greetings

I wish to oppose this proposal as being against the philosophy of the naming system.

The 2LD 'geek' would not add to the information available on the type of user, nor would it extend the usefulness of the internet as a communication system.

At a totally frivolous level, this 2LD would specifically discriminate against people who claim to be 'nerds' not 'geeks'.

Nigel Isaacs
