

Application for a new 2LD - parliament.nz Submission

From: David Murray
Received: 25 March 2005

I think that "parliament.nz" should not be approved as a new 2LD.

The reason why I hold this opinion is that there already exists a 2LD for government related websites - "govt.nz"; and anything to do with the business of the NZ parliament/House of Representatives rightly falls as a sub-domain within the purview of "govt.nz" - perhaps like "parliament.govt.nz".
