Thank you for the opportunity to comment on this proposal. In general, the GCSB has no concerns about the proposal and the policies described.

However, we would like to make a suggestion in relation to Competing Registrants, as described in Appendix B, paragraph 7.9 of the proposal document. The process would ideally take in to consideration a method of recognising a Competing Registrant who has a stronger claim to a domain by virtue of branding or strong association to the domain name.
