Dear Sirs,

My preference for a .nz release is that it be aligned with what the UK Registry is doing.

Nominet have been through a rigorous debate and many consultations over .uk and in summary; [.co.uk](#) holders have first right claim to .uk and have up to five years to accept that option.

Further information can be found here [www.dotuklaunch.co.uk](http://www.dotuklaunch.co.uk)

Sincerely,  
Garth Piesse.
